8. Like locking the door when you leave the house, it is most important to terminate each online session when you are finished - usually by clicking the "Log out" link on the site. If you merely type in another address, or close or minimize the web browser window, it may be possible for unauthorized users with access to the same computer to gain access to your account information. Retrieving this information could be as easy as clicking on the Internet browser icon, pressing the browser's Back button, or recalling a browser's Internet History.

9. Several browsers have introduced a feature where the browser offers to "remember" your user names and passwords to secure web sites. SKY Commodities strongly discourage you from using this feature as it may allow others who can access your computer to log in to your Trading or other online accounts without your knowledge or permission. Hence, don't allow the browser to remember user names and passwords while using a public or shared computer.
